

Welcome to Project Discipleship! Parish leaders who foster discipleship and stewardship as a meaningful way of living know that doing so is like a project that never reaches completion. These flyers in Spanish have been created to help you to bring the message of discipleship to your people in simple and accessible ways: you might email these to your parishioners once each month, or use them with parish groups as part of their meeting; you might have the flyers printed within your bulletin a page at a time.

These first four Project Discipleship flyers focus on general aspects of a spirituality of discipleship. An additional bundle is available that focuses specifically on a spirituality of stewardship. All nine flyers are available in both English and Spanish.

The links to The Project Discipleship flyers in Spanish are below. Let us know how you use these, and what additional materials could be of help to you in your ministry.

Remember that here at Catholic Life and Faith we offer many free or inexpensive e-Resources, along with some fine books that have been selected to help you renew your parish. We know, of course, that when we renew the parish, we renew people's lives of faith, which helps to transform our world in Christ's name. We share this commitment with you and look forward to partnering with you in ministry in the future.
